DETAILED ACTION

Applicant's election with traverse of 1-22 and 39-48 in the reply filed on 04 February 2005, is acknowledged. The traversal is on the ground(s) that the Examiner can search and examine the entire application without serious burden. This is not found persuasive because the original patent was to product claims and claims 23-38 are method claims, the product claims have been constructively elected by original presentation for prosecution on the merits. Also, note that the product and method are independent or distinct since they each have been issued patents. It also appears to the examiner that applicant is trying to get around the two-year bar on broadening claims to the method, which was patented in U.S. Patent 5,435,888, issued 25 July 1995.

The requirement is still deemed proper and is therefore made FINAL.

This application contains claims 23-38 drawn to an invention nonelected with traverse in paper filed 04 February 2005. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Allowable Subject Matter

Claims 1-22 and 39-48 are allowed over the prior art.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
